TITAN RACE PRO S Range

Full synthetic, high performance engine oil providing optimum protection for extended engine life and reliability. Suitable for use in petrol engines to ensure continued maximum fuel economy and reduced emissions.

Available in various pack sizes.

- Outstanding temperature protection
- Excellent cold start characteristics
- Enhanced anti-wear properties
- **5W-30** - *API SN, SM, SL
- **5W-40** - *API SN, SM, SL
- **10W-50** - *API SL, SJ, SH
- **10W-60** - *API SL, SJ, SH

Specifications:

*See above

FUCHS Recommendations:

BMW
MERCEDES

TITAN RACE PRO R Range

High performance engine oil providing outstanding protection for highly stressed engines. Suitable for use in petrol engines to ensure continued maximum fuel economy and reduced emissions. Benefits all high performance power units running on lead free, low-lead or racing gasolines.

Available in various pack sizes.

- Extended engine life and reliability
- Outstanding temperature protection
- Excellent cold start characteristics
- **10W-40** - Ester Synthetic
- **15W-50** - Ester Synthetic
- **20W-50** - Ester Based

Specifications:

API SL, SJ, SH

FUCHS Recommendations:

—

TITAN RACE PRO C3 SAE 5W-30

Designed to be used in modern high performance road cars which are also used on track. Suitable for use in petrol and diesel engines and is compatible with emission reduction systems where an oil of ACEA C3 performance level is specified.

Available in 1L, 5L pack sizes.

- Gives on-track performance with on-road DPF and catalyst compatibility.

Specifications:

FUCHS Recommendations:

ACEA C3
BMW
MERCEDES
PORSCHE
VAG GROUP

TITAN RACE PRO R SAE 0W-20 Racing Oil

A unique low viscosity synthetic lubricant which cuts oil drag yet maintains a tough low-wear film on highly stressed components. Some older engine designs may have inadequate oil pump capacity under race conditions to maintain full oil pressure with this low viscosity product.

Available in 5L pack size.

- Specially researched power train friction modifier chemistry unleashes hidden power for improved acceleration and full throttle output.
- This product is strictly for professional racing & track use

Specifications:

FUCHS Recommendations:

TITAN RACE COMP GEAR

A high performance synthetic ester based gearbox oil designed primarily for off-road by reducing viscous drag & friction. COMP GEAR ensures slick gear changes. Also suitable for road going sports machines where the gearbox and clutch lubrication is combined.

Available in 1L pack size.

- Not suitable for hypoid applications

TITAN RACE GEAR 90LS

A high performance mineral based gear oil for hypoid and spiral bevel axles, which has excellent extreme pressure, anti-corrosion, anti-oxidation and anti-foam properties. This unique formula contains friction modifiers designed to make GEAR 90LS ideal for limited slip differentials operating under severe conditions including competition use.

Available in 1L pack size.

- Recommended for use with the following specifications:
API GL5
- Recommendations:
API GL6 PERFORMANCE

TITAN RACE SRG 75

A full ester synthetic SAE 75 gear oil with naturally high viscosity index ensuring good low and high temperature performance. Possesses excellent shear strength and carrying capability.

Available in 1L pack size.

- Not suitable for hypoid applications
- Developed exclusively for racing transmissions

TITAN RACE SYNCHRO SAE 75W-90

Designed for use in manual transmissions operating under arduous and high speed applications where an oil of this viscosity and performance level is specified. Especially recommended for road going track cars with manual transmissions including synchromesh gearboxes.

Available in 1L pack size.

- Recommended for use with the following specifications:
SAE 75W-90, API GL-4
- Recommendations:
Manual transmissions
Synchromesh gearboxes

TITAN RACE SYN 5 SAE 75W-90

Highest quality fully synthetic; PAO/Ester based multifunctional gear lubricant for use in manual transmissions and final drives where an SAE 75W-90, API GL-5 gear oil is recommended. Designed for use in dog/crash boxes, sequential gearboxes and final drives working in severe applications. Especially recommended for race applications.

Available in 1L & 20L pack sizes.

- Recommended for use with the following specifications:
SAE 75W-90, API GL-5
- Not recommended for synchromesh transmissions

TITAN SINTOFLUID SAE 75W-80

Premium gear oil offering good gearbox efficiency. Suitable as fill for life fluid. Reliable operation under high loads in manual transmissions. Protects against wear, sludge formation, agglomeration and corrosion. Good viscosity temperature behaviour lying above the performance of many normal service gearbox lubricants, ensuring lubrication at very low as well as very high operation temperatures.

Available in 1L & 20L pack sizes.

- Recommended for use with the following specifications:
API GL-5
- Recommendations:
MIL-L-2105 D

TITAN RACE PRO CCA ULTRA

Provides corrosion protection for all metals normally found in cooling systems of race and competition engines. Harmless to seals, elastomers and all other non metals used in the cooling circuit. Helps prevent cavitation in water pumps and galleries.

Available in 1L pack size.

FUCHS PRO BOOST

An efficient octane improver specifically designed to combat pre-ignition or "pinking" and improve acceleration especially in tuned or re-mapped engines. Improves throttle response and facilitates cold starting. Features a "keep clean effect" in both carburettor & injection systems. Suitable for all petrol engines and all types of fuel.

Available in 1L pack size.

TITAN RACE RACING BRAKE FLUID

Top quality, high boiling point, low compressibility competition brake fluid suitable for use in all modern brake systems where a DOT 4 or a DOT 5.1 fluid is specified. Protects seals and brake system components even at high operating temperatures and retains braking efficiency even under competition conditions. Suitable for fast & normal road use.

Available in 500ml pack size.

FUCHS PRO FST

A fully effective carburettor de-icer which also guards against cold start engine wear and fuel system corrosion. Combats carburettor sticking and jet blocking. Effective in all unleaded and leaded fuels, and also combats minor pre-ignition effects.

Available in 1L pack size.

FUCHS PRO COOL

This advanced, all season, reduced toxicity engine coolant is formulated using distilled water to give zero lime scale deposits, optimum frost protection in severe winter conditions plus excellent anti-corrosion performance. Ready to use and is compatible with all alloys, plastics, elastomers and gasket materials used in modern engine cooling systems.

Available in 1L & 20L pack sizes.

FUCHS MAG COOL

Long term, ready to use anti-freeze and coolant based on mono-ethylene glycol for use in engines especially those containing the latest magnesium alloy technology. Formulated using the latest advanced Organic Acid Technology (OAT). Protects highly stressed engines from frost, over-heating, corrosion and cavitation.

Available in 1L & 20L pack sizes.

TITAN RACE CVJ GREASE

Based on synthetic oil technology, with a highly specialised thickener structure. Designed to absorb heavy shock load conditions, frequent axial movements, large speed variations and extreme temperature conditions. Especially suited to constant velocity joint lubrication.

Available in 400gm tub.

FUCHS COPPER PASTE

A superior high temperature anti-seize lubricant containing copper. Designed to control pitting, rusting, thread distortion and seizure due to corrosion and chemical attack. Overcomes galling on assembly and reduces dismantling torque. Lowering the force required during assembly, it is perfect for threaded connections, wheel nuts, spark plug threads, cylinder head bolts, exhaust systems, etc. Prevents brake squeal – apply to calliper, pins and back of pad.

Available in 100gm tube.

RENOLIT RED RUBBER GREASE

A special, rubber compatible grease for use on hydraulic brake and clutch components where hardening or swelling of rubber must be avoided. Designed to assist in the assembly of rubber components for brake, clutch and suspension units and is suitable for natural and synthetic rubbers. It is highly resistant to petrol and other chemical attack, mechanical and thermally stable.

Available in 500gm tub.

TITAN RACE WB GREASE

Based on synthetic oil technology, with a highly specialised thickener structure. Shows high levels of thermal and mechanical stability, offering increased protection and performance under the most extreme conditions. Especially suited to wheel bearing lubrication.

Available in 400gm tub.

FUCHS PRO RG2 GREASE

An advanced, high performance synthetic multi-functional racing grease with exceptional heat resisting & waterproofing properties. Outstanding water repellence, excellent corrosion inhibition properties and high resistance to water wash-off. Ideal for rally and watercraft use. The 500g container allows for simple and clean application while preventing product contamination. Recommended for use with the following specifications: NLGI-2.

Available in 100gm tube.

FUCHS MAXILUBE

Professional multi-purpose rust preventive, lubricant and dewatering aerosol suitable for use in many applications. This product is designed to be multi-functional whilst offering excellent water displacing characteristics and excellent lubricating properties.

Available in 500ml aerosol cans.

FUCHS RENOCLEAN E

High performance deep penetrating, fast acting, fast evaporating solvent based degreaser. Designed to remove grease, oil, dirt and grime from engines, tools, equipment and hard surfaces. Evaporates to leave a clean, dry surface. Can be used on both ferrous/ non ferrous metals and most plastics.

Available in 500ml aerosol cans.

FUCHS CHAINLUBE

High Performance lubricant designed for all chains not fitted with an automatic lubrication system. Contains a high viscosity lubricating base oil containing extreme pressure and anti-wear additives for superb chain protection. Penetrates pins and bushes, reduces chain wear, provides excellent corrosion protection and reduces friction.

Available in 500ml aerosol cans.

FUCHS COPPER ANTI-SIEZE

Effective extreme pressure, high temperature, anti-seize paste to prevent metal-to-metal contact seizing. Absorbs disk brake noise and provides excellent separating properties. Reduces wear at temperatures up to 275°C and is effective as a release agent up to 1100°C.

Available in 500ml aerosol cans.

FUCHS SILKOPEN

A suspension of very fine lubricating graphite in a thin searching mineral oil carrier. Silkopen penetrates corroded or seized threads, lubricating and easing the quick release and dismantling of metal parts by lowering the torque required. *NB.* Silkopen may affect certain rubbers and plastics.

Available in 500ml aerosol cans.

FUCHS MAINTENANCE SPRAY

Multi-purpose rust preventive lubricant & dewatering aerosol for multiple use. Give users a flexible and practical aerosol for a number of solutions. Ideal for lubrication of small or inaccessible components, such as locks and hinges, ideal for loosening rust scale before wire brushing, excellent damp-start for motor vehicles.

Available in 500ml aerosol cans.

FUCHS WHITE GREASE

Water resistant and high temperature stable grease fortified with solid lubricant. Designed to provide effective long term lubrication even under shock loading conditions. Suitable for a variety of applications such as industrial, automotive, marine and household/retail.

Available in 500ml aerosol cans.

FUCHS SILICONE SPRAY

High performance lubricant and release agent with a quick drying no-mess formula leaving a colourless, low friction film. It is safe for use on metal, plastics, rubber, vinyl, wood, and much more. Repels water. Also protects electrical parts such as distributors, ignition wires and spark plugs.

Available in 500ml aerosol cans.

FUCHS BRAKE CLEANER

Fast acting for the cleaning and degreasing of all brake parts. Advanced formulation leaves no residue. Quickly dissolves & removes grease, oil, brake fluid, road grime, dirt & contaminants. For degreasing bolts, nuts, master cylinders, disc & drum brakes, callipers, rotors, ABS, cylinders, linings, brake shoes/ pads.

Available in 500ml aerosol cans.
