

STOPS OIL BURNING 30-70

Premium Mineral Engine Oil

Issue: December 2015

Product Code	Pack Size	Carton Qty
PMO30001	1 Litre	6
PMO30005	5 Litre	4

PENRITE

Description

Stops Oil Burning 30-70 is a high quality premium mineral, 30-70 engine oil designed to control oil consumption in worn or older engines.

Application

Stops Oil Burning 30-70 is designed for use in 4, 6 & 8+ cylinder naturally aspirated, supercharged & turbocharged engines. It is not recommended for multi-cam, multi-valve or engines with variable valve timing.

Stops Oil Burning 30-70 is designed for older petrol engines where there is excessive oil consumption due to condition such as worn piston and oil rings, cylinder bore deformation, worn or broken valve stem seals, worn main seals and other gasket and oil sealing issues. The heavier viscosity cold starting temperature and ultra high operating viscosity of this oil makes this product resilient to conditions where normal oils would be burnt or leaked by some engines, therefore prolonging the service life of some motors.

Vehicle & Fuel Types

Stops Oil Burning 30-70 is designed for use in passenger car, 4WD's and light commercial petrol driven vehicles and is compatible with Petrol/LPG (Dual Fuel) & E10. It is not recommended for diesel engines.

Product Benefits

- Reduces oil consumption
- Maintains oil pressure
- Protects engine from wear
- Resists sludge formation.
- Catalytic converter compatible

Industry Specifications

API SJ

Typical Data

Density at 15°C, kg/L	0.876
Viscosity, Kinematic, cSt	
at 40°C	290
at 100°C	28.6
Viscosity Index	133
CCS Viscosity @ -10°C, cP	6995
Zinc, mass %	0.110
Sulphated Ash, mass %	0.88
Base Number	5.8

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. An MSDS is available on request.
