

SYNTIUM 3000 Cod. 1815

DESCRIPTION

The experience gathered by Petronas on the F1 circuits and in the most important motoring events and competitions has enabled the development of Syntium: a range of hi-tech lubricants capable of meeting the needs of new-generation engines.

Syntium 3000 is a synthetic lubricant with fuel economy characteristics and protects the engine in all climates.

CHARACTERISTICS

Owing to the particular formulation developed by Petronas R&D laboratories and countless tests on the engines of major automotive manufacturers, Syntium 3000 can offer:

- | Extensive protection against wear of all engine components subjected to lubrication;
- | Prevention against the formation of deposits and sludge;
- | Fuel economy due to the maximising of engine performance;
- | Outstanding thermal stability and resistance to oxidation;
- | Reduction of oil consumption;
- | Compatibility with a comprehensive range of engines.

ADVICE ON USE

Syntium 3000 has been formulated to meet the needs of the latest petrol and diesel engines of any brand and Manufacturer, including high power ones. Particularly suitable for Common Rail engines.

TECHNICAL DATA

SAE 5W-40, API SN/CF, ACEA A3/B4, BMW LL-01, GM-LL-B-025, MB-Approval 229.5, PORSCHE A40, RENAULT RN700/RN710 Performance, VW 502.00-505.00
